What is a WOW!?

At Citizen Schools, a WOW! is what students produce through their apprenticeships: high-quality, real-world products or performances that have value for the community. From a gourmet meal prepared and served at a neighborhood fair to a puppet show performed for patients in a children's hospital to a new web site designed for their own school, each WOW! makes young people heroes in their own community, and demonstrates what's possible. If you are interested in becoming a volunteer, please sign up on our website at www.citizenschools.org/volunteer
